## Bay Roberts Man Leaves Estate of \$250,000.00

### The late Azariah Dawe Makes Many Bequests.

TORONTO, Jan. 18.—Stocks and God and the benefit of His house, and bonds are the Ontario securities in as a memorial to my late brother the estate of Azariah Dawe, a merchant, Charles, and my dear wife, reads the will of Bay Roberts, Nfld., who died Jan. 8, 1919, leaving \$255,273. Three sons, three sisters, three cousins, a nephew and niece, three grand children, and a number of friends living in Newfoundland, share under the will. The sum of \$500 is bequeathed to erect a fence around the present cemetery of St. Matthew's Church, Bay Roberts, and a similar sum to the Church of England Orphanage at St. John's and \$1200 or \$1600 to provide for a stained glass window for discretion they may see fit, the will of St. Matthew's Church to the glory of God.

LONDON, Jan. 18.—British troops are being withdrawn gradually from Mesopotamia only as the country becomes more pacified, making it possible for fewer troops to maintain order, according to an authoritative statement in official circles. No indication is given, however, of the number to be withdrawn, because this will depend on how long it takes to restore order.

SYDNEY, N.S., Jan. 18.—Incomplete returns from United Mine workers' polls indicate the re-election of Robert Baxter as district president over his opponent, George Bagnell. William Delaney's victory in his contest for the vice-presidency against George Hayes of Springhill is even more pronounced as he scored immense majorities in a number of Cape Breton locals.

NEW YORK, Jan. 18.—The announcement that the heavyweight championship bout between Jack Dempsey, title holder, and Georges Carpentier, European champion, for which a purse of \$50,000 had been offered, has been definitely declared off, was made to-night by the New York Times. The failure of the principals to deposit monies provided for in the contracts signed by the promoters, boxes and their managers was given as the reason for cancellation.

## O'CALLAGHAN TELLS OF SECRET PASSAGE

Hung Around Books Dressed As Laborer—Concealed Seven Days.

NORFOLK, Va., Jan. 7.—The story of how he had boarded the steamer West Cason, at Cork, for his secret passage to this country, was told by Daniel O'Callaghan, Lord Mayor of Cork, who came here late yesterday from Newport News, with Peter MacSwiney, brother of the late Lord Mayor.

Getting aboard ship was not so difficult as it may seem, O'Callaghan said. "Dressed as a laborer, I hung around the quays for about an hour watching my chance. Many of the crew were absent from the ship, and when I saw my chance I climbed a ladder and slipped aboard and into the hold."

He added that MacSwiney had boarded the ship ahead of him.

After boarding ship O'Callaghan said, he remained concealed for seven days in a bunker until driven out by seasickness. MacSwiney also was a

stowaway for three days, he said, but finally came out of hiding and was put to work in the fore-castle. Thru him, O'Callaghan said he received food for four days.

"When Mr. MacSwiney made his presence known, calling himself Mulligan, our small store of food was about out," O'Callaghan continued. "He was put to work at once and it was comparatively easy for him to reach the bunkers with food and water for me. I would have made out all right, but the ship was rolling very badly after being out a week, and I succumbed to seasickness. Finally I determined to lie down a while where the air was better and went to a bunk when the watch was on duty. One fellow, however, came down and discovered me. Despite my sickness I went to work with Mr. MacSwiney."

## British Boxers Defeat Yankees Police, Army and Navy Win Out.

NEW YORK, Jan. 18.—British boxers made a clean sweep over Americans here last night in the first international amateur tournament staged by the International Sporting Club. The champions of the London Police Force and the British Army and Navy defeated the best of the respective American classes before a large crowd in the ball room of the Commodore Hotel.

### Western Union Cable

NEW YORK, Jan. 18.—Injunction proceedings to prevent the Western Union Telegraph Company from landing its cable from Barbados at Miami, to which official objection has been made, were instituted by the Government here to-day.

## CAPT. HOEBURG REFUSED TO LEAVE HIS SHIP

### Crew of Ludwig Coming Home By the Dfgby.

HALIFAX, Jan. 18.—William Johnston, mate; Johan Gustafsson, boat-swain; Arthur Walter, cook and Edward Brown and K. Nelson, seamen, of the ill-fated schooner Ludwig which was lost in a December gale at Malaga, Spain, while en route from Newfoundland to Spain with a cargo of fish, arrived here to-day on board the Saxonia and will leave for St. John's, Newfoundland, on the Dfgby. Describing the wreck of the Ludwig, members of the crew told how Captain Hoeburg, a Dane of seventy-eight, refused to leave the ship after it was apparent she would go on the rocks, and the crew were taken to the boats. Capt. Hoeburg was drowned.

## Very Latest

TORONTO, Jan. 18.—With the temperature 25 below zero, at 4000 feet in the air, Lieut McLerie flew from Camp Borden to Toronto to-day, and after a brief stay at Leaside flew back to camp.

NEW YORK, Jan. 18.—W. E. Pussyfoot Johnson returned from the British Isles on the Imperator to-day to report to the headquarters of the anti-alcoholic movement here, and said that he believed that the Northern part of Ireland would in time become bone dry. He met with a cool reception in Wales, he said, and added that until he was rescued by police at Wrexham the crowd wished to put out his other eye or do him bodily harm. Johnson said that although he harranged second cabin passengers, amongst whom he travelled, telling them of the evil effects of strong drink, they drank harder than ever after his exhortations. He rather lost hope in them, he said. Scotland would be eventually dry as it is now bone dry in the United States after a long campaign.

BOSTON, Jan. 18.—At an informal meeting to-night of merchants and others connected with the fishing industry at this port it was decided to delegate Gardner Poole, President of the United States Fisheries Association, to appear on behalf of the Boston fishing interests before the House of Ways and Means Committee at Washington in advocacy of a duty on fish. The Committee will consider fish schedules on January 21 and 22 in continuation of its tariff hearings. It was announced that the sentiment of the meeting was unanimous that there should be a adequate duty on fish, but no figures were specified. Boston fish men will consult with Gloucester fishing interests before Mr. Poole goes to Washington in the hope that he may be able to present views of representatives of industry at both ports.

## Smuts' Victory is Now Assured

Nationalists Come Over To His Party.

LONDON, Jan. 18.—Reports from South Africa, where the General Election fight is nearing its conclusion, indicate, says a Capetown cable to the Times, that the Nationalists, the Boer element headed by General Hertzog and consisting of the principal opposition to Premier Smuts, are alarmed and dissatisfied with their leaders. In Graf Reinet District recently an entire Nationalist meeting with its chairman seceded from the party and joined the South African or Smuts party.

### U. S. Seaplanes Safe

SAN JUAN, NICARAGUA, Jan. 18.—The crew of the United States naval seaplane N.C. 6 are safe with the machine in a cove about fifteen miles north of here. The N.C. 6 and N.C. 5 ran into a storm Saturday night which forced them to alight on the storm tossed water. The N.C. 5 was rescued by a steamer and N.C. 6 washed ashore.

### Fishermen May Modify Their Demands.

BOSTON, Jan. 18.—The New England Fishermen's Union which has taken the lead in the movement for an emergency tariff on imported fish, will probably modify their first demands, according to the views of M. P. Nickerson, Commissioner of Fisheries from Nova Scotia. It is believed the idea of a general tariff on fish will be abandoned and Congress will be asked to put a duty on certain kinds of fresh fish or failing that to place an embargo on foreign vessels coming direct from the fishing banks to sell their catches. It appears that the active spirits in the movement for restriction on importation of fish are men from the provinces and Newfoundland serving on American vessels.

**Why All This Long  
Message About Nothing?**

ROCKAWAY, Jan. 17.—Conditions are being corrected at the Rockaway Naval Air station so that it no longer will be possible for pilots to float into Canada without discussing details of their proposed flight with their commanding officer. This testimony was given here to-day by Captain Damon E. Cummings, Commandant, at the opening of the court of inquiry investigating the recent spectacular balloon flight of Lieuts. Kloor, Hinton and Farrell. Capt. Cummings's first witness testified that he had taken up his duties only last November and that while he had authorized the flight, he had been so occupied with administrative duties that he had left flight details to his executive officer, Lieut. Commandant Archibald H. Douglas. The Commandant read a report made to him by Lieut. A. W. Evans, sent to Canada to direct a search for the missing aeronauts in which it was said the trip was intended for flight into Canada. Asking for permission to make a comment on this report, Capt. Cummings said, under conditions which were in progress of correction it was possible for a flight to be attempted into Canada from this station without that intention being previously discussed with the commanding officer, a condition now excusable at an air station and which as such as is was recognized was corrected.

**EXCHANGE RATES**

Attention has been directed to Canadian exchange by recent progressive depreciation of the Canadian dollar as measured in United States money values. An explanation of causes which have led to this depreciation is given in "The Dominion of Canada," a study by the Bankers Trust Company, of New York.

"Prior to the war," says the study, "and until March, 1918, the difference between the high and low rates of Canadian-United States exchange was usually not more than one per cent, above and below par. When Canada was exporting her crops the balance of exchange was in her favor and drafts on New York were at a discount—that is, the exchange was against New York.

"On the other hand, in the spring and summer, when Canada had large payments to make on balance in the United States, drafts on New York were at a premium because they had to be covered by remittances in gold or what amounted to the same thing. Before the war, by common consent, London was the great clearing house of the world. Canadian banks through the purchase of drafts against shipments of Canadian exporters accumulated large credits in the London market.

"They were thus in a position through their agencies in the United States to sell American importers from Great Britain drafts on London and in this manner to transfer to the United States the London credits. These in turn, were then available to settle balances due in New York by Canadian merchants and manufacturers.

"This course of trade has been upset by the resort of nearly every country to excessive use of paper money and of other credit instruments. These paper currencies are valueless to pay debts in foreign countries. In December, 1915, a scheme was launched by Great Britain for the mobilization of foreign investment holdings of the British people to be used for stabilizing American exchange. The result was that New York-London exchange was maintained at practically a uni-

form rate of \$4.76 7-16 until March 21, 1919, when the control was removed. "When the London-New York exchange rates broke, Montreal-New York rates followed suit. The prem-

sum on American drafts in Canadian cities which had risen to two per cent. During 1918 became three per cent. In the spring of 1919, four per cent. In the early autumn, by November, six per cent.; in December, 11 per cent.; while in February, 1920, it reached 17 1/2 per cent., and in August was about 12 per cent.

"Thus the prices of all commodities which Canadians buy in the United States are raised, and the return those sold here is correspondingly increased, to the extent of the premium on New York exchange at the time of purchase or sale. In the end, though, it largely harks back to the dislocation of the London-New York exchange.

"Although there are factors which are not in common," says the Bankers Trust Company, "yet when the London-New York exchange is corrected the Montreal-New York exchange should gravitate to a normal status."

**Hudson Bay Co.

Sir Arthur Currie Receives \$20,000  
Cheque For University.

(Montreal Star)  
A cheque for \$20,000 from the Hudson Bay Company, a contribution to the McGill Centennial Endowment Fund, reached the university this morning, accompanied by a letter to Sir Arthur Currie from A. M. Irvine, general agent of the company. The letter in part reads as follows: "I am directed to inform you that the Governor and Committee of the Hudson Bay Company have authorized a special subscription in the sum of \$20,000 toward the McGill College Centennial Endowment Campaign Fund.

"In compliance therewith I now beg to hand you this company's cheque for the amount stated above and to convey to you on behalf of this company sincere wishes for the continued

success of McGill in the great field in which its most valuable work is being carried on.

"I am directed to add that the apparent delay in sending our subscription is due to the matter having been taken up with the head office in London by mail."

Sir Arthur Currie has replied to the letter expressing the gratitude of the

university for the generous donation and referring to the many valuable gifts for which McGill is indebted to Lord Strathcona, a former governor of the Hudson Bay Company. He expressed a hope that McGill would, in the future as in the past, carry on her work successfully and fully justify the trust which her many friends have placed in her.

## St. Joseph's Welcomes New Pastor.

Last evening, a deputation from the parishioners of St. Joseph's waited on Very Rev. Fr. Pippy to extend to him a formal welcome to the Parish to the charge to which he was recently appointed. Fr. Pippy received the deputation at the Presbytery and Inspector Mackey, Chairman of the reception Committee, after stating the object, asked Mr. R. Jardine Secretary, to read the address of welcome which was to be presented to the new Pastor. The address was as follows:

### ADDRESS.

To the Very Rev. J. F. Pippy, P.P.  
From the People of the Parish of St. Joseph's.

Dear Rev. Father:—On behalf of the people of St. Joseph's, we take the earliest opportunity of extending to you a hearty and sincere welcome to our Parish.

When the announcement was made that Rev. Dr. Kitchin, who had laboured amongst us since the inauguration of the Parish, had been selected by His Grace the Archbishop to fill the vacancy at St. Patrick's, there was one thing which, more than any other, tended to lessen the poignancy of the sorrow of a separation, made all the more difficult because of the fact that we had come to regard as inseparable the parish itself and him who had directed and encouraged its growth with such loving care and who had, by his unremitting solicitude for their welfare, enshrined himself in the hearts of his flock. That thing dear Father, was the accompanying announcement that we were to have as his successor and as our spiritual guide one as was known to us, perhaps, better than any of the Priests in the Archdiocese and whose assiduity in the administration of his sacred duties in other corners of the Master's Vineyard, had made his name synonymous with ecclesiastical progress.

If our welcome to you lacks ostentation, be assured that it is not wanting in the measure of warm-hearted sincerity which actuates your people in thus pleading their fealty and esteem. It is scarcely necessary for us to say that, in the past, co-operation between Pastor and parishioners as a predominant factor in the advancement of St. Joseph's, but we do wish, dear Father, to impress upon you that to go hand-in-hand with you in every effort to have that advancement continue, will be our greatest satisfaction in the future, and we say with every confidence that the spirit of self sacrifice which has ever been the keynote of your predecessor's life will be apparent in your own activities as they affect the spiritual and temporal interests of those whom it has pleased Almighty God to entrust to your guidance. We, on our part, beg you to accept the assurance that it will ever be our most ardent desire to lighten the burden which you must carry in your servitude to God and to, wherever possible, make smooth for you the road over which you must travel.

In conclusion, we trust that in the not very distant future we may be privileged to give more tangible expression to the welcome we now extend to you and we pray that God's most beautiful blessings may be yours and that you may be spared many years to labor amongst us.

On behalf of the parishioners.  
(Sgd.) James Mackey,  
John Hayes,  
Ray Jardine.

In reply, Fr. Pippy said that he was deeply grateful for the sentiments expressed in the address just read, which he regarded as a happy augury for the future. In coming to St. Joseph's as the successor of Rev. Dr. Kitchin, he felt that he was succeeding one who was learned and pious beyond the average and whose example it would be difficult to emulate in all respects, but so far as it lay in his power he would at all times further the interests of the Parish and those of its people both spiritual and temporal. It would be his pleasure to serve them and minister to them night or day; he would ask in return only that whole-hearted co-operation without which no Parish can show satisfactory progress. In the Parish of St. Joseph's, said Fr. Pippy, there are many evidences of the existence of this co-operation in the past. The beautiful church, the school building which has no peer in the country and the splendid hall, bear mute but eloquent testimony of how pastor and people had worked together in the utmost harmony. In the parish of Ponch Cove and Flatrock where he himself had spent nearly three years this spirit of co-operation had manifested itself to an unusual degree and had been responsible for such advancement in the brief period of his pastorate as few parishes could boast of. No sacrifices had been too great for these people to make and their devotion in this respect would ever be to him a happy memory. In conclusion, Fr. Pippy again thanked the people of St. Joseph's for their warm welcome and assured them that the beautiful address presented by them would always be among his most cherished possessions.

## SWEAR OFF TOBACCO

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

## A Counter Revolt?

THE HAGUE, Jan. 18—The Official Correspondence Bureau to-day denied the reports in circulation that members of the Hohenzollern family had been ordered to leave Holland because it was stated the Allied diplomats here informed the Dutch Government that they were planning a counter revolution in Germany.

## An Ambush Tragedy

LONDON, Jan. 18—Four civilians were killed and seven Black and Tans were wounded in a fight in County Galway, Ireland, according to a report. The fight followed the ambushing of the Black and Tans patrol.

## Continue Work in Sydney Mines' Shops

SYDNEY MINES, Jan. 11—Rather than suspend for an indefinite period, and dismiss skilled help in the machine shops, foundry, forges and other departments, the Scotia Company have decided to continue working the shops on the eight-hour basis until able to resume business as usual and give the men full time.

Since the Steel Plant ceased operations the shops were chiefly depending on work sent in from the collieries.

The company favored adopting the eight hour system in order to hold the men together and not cause any unnecessary hardships to the men.

## The Optimistic Spirit Evident

As against the depressing articles which have been appearing in the Tory press all last Fall, it is heartening to read the many letters that are coming to us daily telling of Outport events, parades of societies and all the social gatherings which make Outport life enjoyable.

Some may tell of times not quite so bright as other years, but throughout all there runs an optimistic spirit that tells of a faith which is content to make the best of the times, looking forward with hope to the future. This is the spirit that makes our Outports places of happiness, where revolutionary bunkum does not find any foothold.

The disturber does not find anyone to help him, the people being law-abiding and ready to look after themselves to the whole extent of their powers. This is why Newfoundland is always able to recover from any Trade set back. In other countries, strikes and disputes make much trouble, and retard the growth of these countries, but in Newfoundland production is always going ahead, and we have in the main, a population which raises a great deal of its food in its gardens, and this means much more than we realize. It is the policy of Hon. Dr. Campbell, Minister of Agriculture, to foster this industry of farming and to induce our people to enlarge their plots.

The country will never witness the poverty and misery of other countries while it is possible for those in the Outports to have their gardens and raise enough vegetables for themselves, and have room to keep some live stock.

There is not a country under the sun where this can be accomplished so easily, and if Newfoundlanders have gone away, it is our impression that the miserable conditions abroad will bring them back again, glad and satisfied to come back to a little homestead where they can live happily, and with little expense, glad to breathe the fresh breezes of the sea and feel a freedom that no city can bestow.

## Dry Dock Premises Busy Place

### Many Men At Work And Make Good Wages.

At the present season of the year when so much is heard of depression in trade and lack of employment it is encouraging and heartening to realize there are some premises affording quite a contrast to the prevailing dullness in other industrial centres. We refer now to the Dry Dock premises of the Reid Nld. Coy. and its associate departments where a small army are busy all through the year and labor skilled and unskilled is compensated on a scale so liberal that most of the operatives and their families are able to live in comfort.

One needs but to stand at the junction of Water Street and the Long Bridge any day when the noontide whistle blows to see the large crowd of men who issue from the dock gates or from the doors of the various shops bordering on or contiguous to the dock to realize what a great factor the Reid Nld. Coy's works are in the industrial and economic life of St. John's. From the apprentice to the veteran mechanic or helper, all are represented, and all seem to be perfectly well aware that they receive considerable treatment and liberal wages for the work they perform. Yesterday afternoon a reporter of The Advocate had the pleasure of a stroll through the premises and was delighted to witness the hum of activity to be noted everywhere about the extensive plant.

### The Railway Shops.

Taking the above department first it was a revelation to notice the amount of work being done here. The railway shops are presided over by Mr. Fullmore, a gentleman of wide and varied experience and who heretofore was identified with some of the largest railway construction plants in Philadelphia and other parts of the United States. Somewhere between 150 and 170 men are constantly employed here, about 80 of whom are skilled engineers, boiler makers, steel workers, &c., and the rest are apprentices and helpers, the latter being men of mature experience and whose work is more valuable than that of the ordinary laborer inasmuch as their experience imparts a particular definiteness and knowledge of requirements than that of newly hired men. The clang of hammers, the buzz of swiftly revolving machinery and the general noise inseparable to such a scene told that all were on the job. Engines were being repaired in several parts of the shops, and the third large rotary plow to be used by the Company is being constructed and is well under way to be used on the cross country service. All the locomotives which come off the line needing attention are run into the shops and are repaired with thoroughness and despatch.

### The Dock Shops.

This extensive industrial branch of the dock premises is looked after by Mr. Harvey, a man of excellent attainments who has about 300 men working under his supervision. These are engaged in various departments such as in repairing ships, general engine work, blacksmith work, boiler making and in varied other forms of industrial activity. About 150 of this large staff of

men are skilled mechanics, men who would be sought after in their different vocations in any part of the world; for your Newfoundland mechanic as a rule can run the whole gamut of his profession, never specializing in one particular department to the detriment of others. As in the railway shops here also there was the usual concomitant of noise showing all to be hard at it every man in his place and everything going forward actively though orderly. Carpenters and mechanics were also busy here and youthful apprentices eager and alert seemed rapidly to be gaining experience and knowledge of the several crafts in which they aspire to become proficient. This is undoubtedly the busiest part of the Dry Dock premises and we noticed quite a number of men engaged on the dock floor and on scaffolding at work putting a new propeller on the S.S. "Delco" now on the stocks, while the S.S. Bassan is having her machinery put in order preparatory to being towed to a United States port. From year end to year end this place never has a dull moment and sometimes when a rush spurt is on the activities witnessed yesterday are increased tenfold and mean bigger pay envelopes for all.

### The Car Shops.

Superintended by Mr. Fillmore the car shops employ at present over 100 operatives of whom 40 are skilled mechanics. Here a number of new freight cars for the railway are being built, passenger and freight cars being repaired and smith and general carpentering work being done, so that often it occurs that there is more work to be performed than can be conveniently handled and all work on full time. Though of necessity not much work is to be done in the freight department at present still at least 50 men are engaged in the sheds as checkers, truckers and general freight handlers, all making good wages add to whom are the 50 or more men who work night and day shifts in the round house, the staff in the General Stores and the army of office hands, auditors, dispatchers, &c., in the railway station and one can realize to a limited extent the great number employed by the Reid Nld. Coy. We do not know nor did we deem it altogether decorous to ask what amount is paid weekly or monthly in wages and salaries but that it must run up in the thousands is inevitable and that a colossal sum is paid out yearly in weekly and monthly stipends is quite obvious. If such an unfortunate contingency were possible the sudden cessation of the industrial activities of the Reid Nld. Coy. would be an economic blow of an irremediable character and one from which the country and especially the city could not recover for many years.

But why import your counter checks and other stationery when the Union Publishing Company can make them better and cheaper than the foreign article?

## The London Broker and The Daily News

(To the Editor)

Dear Sir,—Only to-day while nursing a bad cold, I came across a Daily News of last week. The editorial for the date mentioned starts out by saying that some time since "we" had a letter from a London broker, in which our friend, the broker, tells us that a pal in Oporto writes him the Regulations are ridiculous, and the Standardization requirements have also turned out to be a farce, etc., etc. I do not quote the exact words, Mr. Editor, but this is the substance of that brain worrying editorial of a few days back in the Daily News. Now, I remember last year when the House of Assembly was in session being in the House and hearing the Hon. W. F. Coaker tell the House what sort of a character the London broker really was. I think he described him as another sort of Shylock, who so long as he could make his few cents, his pound of flesh commission, was prepared to sacrifice the interests he was naturally expected to take in obtaining the best possible price for fish committed to his care for sale. If proof were wanting that such was, and is, the fact then this drivel of the News furnishes absolute affirmative evidence. Personally, to me it is inconceivable that this London lounge, who probably cannot tell a tomcod from a squid, has the temerity to give such an expression of opinion, and the Daily News if actuated by an honest desire to remedy defects should have quoted the name and address of its London correspondent. The Trade would then be enlightened as to what species of London broker this genus homo belongs. With this information forthcoming, I feel certain the Trade will take the necessary steps to prevent Mr. Broker from unloading his opinions through the Daily News on an indignant Newfoundland public.

The most partisan critic of the Fish Regulations admits that a very marked improvement has taken place this year in the cure of fish as a whole. In view of the fact that a drastic and far-reaching policy was inaugurated almost over night, the results attained are admitted to be splendid. That there is poorly cured fish brought about by conditions which no fisherman, buyer or shipper can entirely prevent, only an idiot will deny; but for a first year's trial, and speaking as one who has discussed this matter impartially with fishermen from all sections of the country I am prepared to go on record

## Standardization Policy A Progressive Move

The Editor of the Telegram in Monday's issue expatiates ad nauseam on 'bad fish.' We can conceive of nothing more ridiculous than Mr. James devoting his editorial column to an instruction to the fishermen of this country as to the causes which produce an inferior article. He says in his opening paragraph that "no persons engaged in the codfishery will deliberately make bad fish." Well then if this be so, how is it that year after year the cry goes forth that our staple industry is deteriorating, and that fish in every increasing quantities was year by year being shipped to market, which fish upon reaching its destination proved to be unfit for human consumption? If it be the fact that no fisherman in the past has deliberately made inferior fish, then Mr. James of the Telegram has deliberately made a remarkable discovery. We opine, however, that in this opinion he will not find even 231 who know anything about the manner and methods employed by a certain class of fishermen in the past years to agree with his reasoning. If the Telegram Editor were within hailing distance of a sane expression of opinion he must have known that the primary cause for drastic legislation in the matter of the cure of fish is because dishonest men in order to gain a temporary advantage in the way of a few dollars saved on salt or the proper and necessary time to wash and make their have seen fit to handle their product in the most slipshod and hasty fashion. In this practise the seller would find small comfort and less financial returns were he not aided and encouraged by equally dishonest traders, brokers and others, who in recent years have scoured the country and Labrador buying up anything and everything which looked like a fish. This illicit method of dealing has alas brought its own reward, and thousands of honest fishermen have had to suffer much in consequence. Nor is this a quick method of disposing of fish a product of the war. Quite true the terrible conflict accentuated the demand and widened the seam for the unscrupulous individual to profit at the expense of his neighbor and to the injury of the Colony's trade as a fish producing country; but the system has been gradually developing in the last 25 years until now it has become absolutely necessary, if we are to hold our own with our competitors, that the lid be closed tight on each and every individual who to feather his own nest is prepared to foul the life-giving stream of the Colony, namely, the production of a quality of fish which shall equal that produced in any part of the globe. Every practical fisherman knows, and he needs no scholarly effort to enlarge his vision that prompt handling and dressing of fish, cleaning, proper and sufficient salting, with the other various stages in producing the finished product, are all that is required to give to the consumer at home or abroad an article which is fit to eat and to keep. Weather conditions can and often do prevent the capable and honest toiler from turning out a No. 1 article; other agencies over which he has no control at times intervene to work havoc despite his abominable toil; but the man who has it in the back of his head to make good fish will get there nine times out of ten.

NEPTUNE.

with my honest opinion that this year's regulations have done more to improve and standardize Newfoundland codfish than all the efforts made in this direction for the past 25 years.

Yours truly,

STANDARD CULL.

Hr. Grace,

Jan. 16th, 1921.

## Federal Devolution.

(Westminster Gazette)

When Mr. Lloyd George said last week that the Government could not move, in the matter of Federal Devolution, in advance of public opinion, he

consigned the scheme very nearly to the Greek Kalends. Public opinion is profoundly uninterested in the matter, which is really one of legislative and administrative convenience. But the Prime Minister rightly pointed out that the great difficulty is England, with its vast preponderance of population. Some Scotchmen may desire devolution on national grounds. No Englishman has any yearnings for the resurrection of the Heptarchy. We believe that the Speaker's Conference came almost at once to the conclusion that there were great practical difficulties in the way of splitting up England. Yet, as Mr. Lloyd George pointed out, unless that is done the scheme will be lopsided and the English Parliament a strong competitor with the Imperial Parliament. There is a lot of thinking still to be done before Devolution reaches the practical stage.

## OBITUARY

HENRY MATCHIM.

Will you kindly give me space in the Advocate to record the death of my father-in-law, Henry Matchim, who passed peacefully away on the 17th Dec. at the ripe old age of 71. He always enjoyed good health until his last three months with us, when he was taken sick with that awful disease, cancer of the liver. He bore his sickness patiently and was never heard to murmur. I asked him before he died would he wish to be restored again and his answer was to me: "No, he was willing to go when it was the Lord's time to call him." We hope that he is called for better rest. He leaves to mourn a wife, one daughter, and five sons. He was laid to rest in the Church of England cemetery waiting for the final call on that great Judgment Day.

We cannot tell the next may fall Beneath the chastening rod. One must be first, but let us all Prepare to meet our God.

## Good Concert at Trouiv T.B.

(To the Editor)

Dear Sir,—Would you allow me space in your highly esteemed paper to make a few remarks about the doings of Trouty on the 22nd December when a very nice concert took place in the Union Hall. Miss Pitcher and the school-children, and some others took part, so there were about thirty who took part in the concert. The door of the Union Hall was opened and it was not long before our little hall had a nice little crowd in it at 7 o'clock, and I feel sure that everybody enjoyed it and wore a smile. The concert was one of the best ever held at Trouty, and after the concert dancing was begun, which was kept up till the wee sma' hours of the morning. They made \$57.00, which is going towards the school, and I wish to thank Miss Pitcher and all who took part in the concert, and I hope that you will all be spared another year to do the same again. The little school-children did well.

Thanking you for space and hoping that 1921 will be a good year for us all.

## CANADA'S NAVY.

(Boston Transcript)

It is altogether fitting that Canada should be given the nucleus of a national navy, now that peace has been finally won at the point of the sword. A Canadian navy, manned and officered by Canadians, will foster among all Canadians a commendable pride in their national achievements. It will at the same time serve as a guarantee of the rights of Canadian merchant ships on the high seas. An efficient and well-trained Canadian navy, however small in size, will always be a valuable addition to the British Imperial Navy. Its creation should, therefore, be endorsed both by the British Admiralty and the British people. A Canadian navy can never endanger the peace of the world, nor menace the liberties of mankind.

## Sale of Work at Birch Bay.

(To the Editor)

Dear Sir,—Please allow me space in the Evening Advocate to write a few words about the Ladies' Aid of Birch Bay. We held our Sale of Work and Tea on December 24th and had a very enjoyable time, the best of all being a Christmas Tree with old Santa Claus in attendance who was in great glee and made us all feel happy. We realized a nice sum for the few people who were here. Many of our people are away in the lumber woods for the winter. We made \$55.69 and I think that is a fine sum for such a little place.

Wishing the Ladies' Aid a Merry Christmas and a Happy New Year.

Yours truly,

## A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Eber's Selgel's Syrup will correct faulty digestion and afford relief.

## C. B. British Society.

'King Edward Branch,' C.B.B.S., held its annual meeting on Monday night last. The Branch is in good financial standing, and the membership is up to its usual strength. The officers for 1921 are: Henry Yetman, President; Moses Wells, Vice-President; Raymond Courage, Treasurer; John Payne, Secretary; Henley Crane, and Eldred Sheppard, Marshalls; Committee:—Mark Davis, Clifford Elsworth, John Horwood, Cecil Pike, Graham French, Ronald Parsons, Walter Shute, Moses Sheppard, Frank Noseworthy.

This Society is a junior branch of the Conception Bay British Society and is ordered and managed by the boys themselves under the guardianship of the executive of the parent society. It is run on the same lines as to benefits. It is a well directed order, giving the boys besides benefits an insight into Society work, rules of order and educates them in public speaking.—Hr. ## F.P.U. Councils Elect Officers

SANDY COVE, B.B.

(To the Editor)

Dear Sir,—As the old year has expired, and we are entering upon a new one, I hope it will be a prosperous one to all. We held our annual meeting and the officers are as follows:

J. Matchim—Re-elected Chairman.

R. Dyke—D. Chairman.

J. C. Dyke—Secretary.

E. U. Powell—Treasurer.

W. A. Dyke—Secty.

We had our Delegate at the Convention and he brought us all the news. I don't expect some of the delegates got their share, but if they did not they will know where it is, friend Dyke brought it to us.

With regard to the Union, we who were Union are Union still, and will never falter without a reason. We are all taking it easy with regard to money making, labor seems to be scarce. But some of our men are looking forward to work cutting pit props in the early future. Christmas is past and I think pretty well all hands enjoyed themselves pretty good. I think some fellows are getting back to the old times when they used to keep the twelve days. But take it on the whole, Xmas is pretty dry!

Yours truly,

## Britannia Sets An Example.

(Telegram and Free Press please  
copy)The outstanding event of the year so  
far was the L.O.A. parade on New  
Year's Day, and Divine Service as ar-  
ranged and conducted by the Rev. W.  
J. Rowe, incumbent of White Rock  
Mission, at the request of the members  
of L.O.L. Cambria.At the time of the great fire in Sept.  
1918 the Anglican Church at Petley  
was completely destroyed, and al-  
though efforts are being made and  
funds are being raised to rebuild, a  
new church at that place has not yet  
become a possibility. Therefore the  
Rev. Mr. Pitcher and his trustee board  
agreed to place the Methodist Church  
at Britannia at the disposal of the  
Anglican minister for the occasion, and  
were highly pleased when it was found  
that the rev. gentleman with the per-  
mission of his Bishop found himself in  
a position to accept the offer. The  
service was conducted according to the  
usages of the Anglican Church, the  
mixed congregation joining in the re-  
sponses and the singing of the hymns  
which were found in both the Ancient  
and Modern and Methodist hymnals.  
The words chosen as a text are found  
in the 8th chapter of the Epistle to the  
Hebrews and fifth verse: "See, saith he,  
that thou make all things according to  
the pattern shewed to thee in the  
mount." After the introduction dealing  
with the order of the Levitical  
Priesthood, etc., the Rev. gentleman  
drew forth the following lessons from  
his text:I.—Man made after God's pattern  
should strive to measure up to the  
standard set up by God in his Holy  
Word.II.—Man should have reverence for  
and humility toward his Creator.III.—Man as a member of society  
and of the home should live for the  
good of his fellow man, he should be  
unselfish.IV.—As citizens of the great British  
Empire we should be loyal to King and  
Empire, and be worthy of our citizen-  
ship.At the conclusion of the service the  
preacher called for the National An-  
them and the Doxology which was  
heartily sung by the whole congrega-  
tion. The sermon was favorably com-  
mented upon by many outside the  
Anglican communion.Mr. J. T. Currie was the organist for  
the occasion.

After the service the parade reform-

## BUY FREELY NOW

(Cincinnati Times-Star)

If patriotism called for meager pur-  
chases eight or ten months ago, it  
calls for greater liberality to-day. The  
"buyers' strike" has done its work.  
While it has lowered the cost of liv-  
ing, it has also closed many factories  
and put many men out of work. Prices  
must go to a sane basis. Some of them  
are there now. Others are about to  
arrive. When a proper price level has  
been established, the American peo-  
ple—who for all the pessimism of the  
times are not "broke" by a long shot  
—should start buying again in order  
that the economic machinery of the  
country may be kept in motion and  
prosperity on a reasonable basis be  
restored.All inquiries regarding Job  
work, Advertising and Sub-  
scriptions should be address-  
ed to the Business Manager  
of the Advocate.Do You Suffer From

people escape altogether—here is  
something that will interest you.BUCKLEY'S BRONCHITIS MIX-  
TURE is quite beyond ordinary cough  
medicines in the promptness with  
which it will cure a severe cough, and  
prevent further more serious trouble.  
You should have a bottle in the house,  
especially if you live out of town,  
then you may feel safe.

At night a tea was served in the

as recorded above were brought about  
by circumstances and should not be  
considered as a movement on either  
side toward Church Union, at least it  
was not looked upon in that light. But  
it has revealed the fact that when peo-  
ple of different religious persuasions  
understand each other it is possible for  
them to kneel together before the  
mercy seat, and worship one common  
Lord in spirit and in truth. And this  
brings nearer the day when our Savi-

as thou Father art in me and I in thee,  
that they also may be one in us: that  
the world may believe that thou hast

## CHEATED HIM OUT MANY SQUARE MEAL SAYS LUMBERMAN

Dauphinee Had Suffered For Over Two Years He States—Tanlac Overcomes His Troubles.

The gratifying results being obtained from Tanlac is further evidenced in the case of Dan Dauphinee, well known lumberman, of Bay Side, N.S. Mr. Dauphinee has resided in Bay Side all his life, and is highly respected by all who know him. Here is what he had to say, while in Halifax recently, regarding his experience with Tanlac:

"I can eat just anything set before me now and enjoy it too, but before I got hold of Tanlac indigestion and stomach trouble cheated me out of many a square meal. I had been suffering for more than two years, and kept getting worse in spite of all I could do. My appetite left me completely, and I didn't dare eat a bit of fresh beef, pork, or fats of any kind. I suffered a great deal from bloating and flatulence, and felt tired and worn-out all the time.

"I finally started on Tanlac, and before I finished the first bottle my appetite began to pick up, and I began to feel better in every way. I have taken three bottles of the medicine now, and my appetite is so big I just eat like a bear. It all agrees with me too, even pork, beef, fats, and everything else I want, and I don't have a bit of trouble in going about my work. In fact, I just feel like I can do the work of two men, and I never heard of anything that will hold a light to Tanlac."

Tanlac is sold in St. John's by M. Connors, in Musgrave Harbor by T. W. Currie, in Joe Batt's Arm by Michael Hackett, in New Perlican by E. J. Green, in Point aux Gauls by Edgar Hillier, in Dildo by Samuel J. Pretty, in Glovertown by Daniel Burton, in Old Perlican by Moses Burey, in Lewisporte by Uriah Freak, in Holyrood by William Coady, in Morton's Harbor by A. W. Brett, in St. Brendan's by Wm. F. Hynds, in Bonne Bay by Butte Bros., in Brent's Cove by Jeremiah A. Sullivan.

## LECTURE TO-NIGHT

All arrangements have been made to accommodate the large audience which will attend the Lecture Room of Cochrane St. Church, the building at the rear of the Church, entrance on Bannerman St., when Hon. R. A. Squires will speak in his "Impressions Abroad."

The Church Choir, under Mr. Arthur News, will be heard in some selections which are bound to please, and other vocalists will contribute songs. Admission is 25 cents.

## M. C. L. I.

There will be a meeting of the M.C. L. I. on Thursday night, January 20th, 1921, at 7.45 o'clock sharp. Debate: "Resolved that Woman Suffrage should be granted in Newfoundland before the next General Election." Speakers: Affirmative, R. Hearder, H. Young, A. Pelley; Negative: G. W. Rabbitts, G. P. Jones, H. Moore.

This resolution is of such importance to women, the Institution will welcome every woman who wishes to be present. Arrangements have been made to have the Hall comfortably heated.—adv.—Jan 19, 21

## "THE FOLLIES"

On Friday night the public will again have an opportunity of seeing Miss Louise Orr's entertainment which proved such a great hit last week at the C.C.C. Hall and which so many wished to see and could not on account of the "full house" sign.

A very cheery entertainment it is, consisting of up-to-date musical comedy hits, vaudeville and dances. Mr. Tom O'Neill, the dean of Newfoundland theatricals, will again appear before the public.

No one should miss this Revue de Luxe, which is in aid of the city poor.

## "THE OLD HOMESTEAD"

Tickets Will Be Selling To-morrow.

Every attention is being paid to the most trifling detail in the production by the B.I.S. players of "The Old Homestead" at the Casino Theatre on Monday afternoon and night.

As the curtain rises one is immediately transported to the comfortable "down east" farm of Josh Whitcomb, which character will be portrayed by Mr. W. B. Comerford. Here on the stage is the real live horse and the drayload of hay which the farm lads are busily "putting" into the barn loft, and in the centre of the farmyard stands an exact reproduction of the famous well and its old oaken bucket around which the quartette will be sung.

The twenty four characters have been very happily cast, and an excellent show is assured those who attend. The theme, changing so rapidly from pathos to mirth provoking comedy, entrances the audience right from the start to the finish, and the climaxes are so startling that they must be seen to be appreciated.

The musical features of the performance will consist of Prof. McCarthy's quartette, Mr. Karl Trapnell, the boy choristers of St. Patrick's, the "Ole Varginn" sextette, and the rendition of the latest musical successes by the full C. C. C. Band.

In view of the worthiness of the object we bespeak capacity houses at all the performances next week. Reserved seats and plan will be at the Royal Stationery at ten o'clock to-morrow morning.

## 72 Hours Out

The tug Ballenas which left Halifax on Sunday morning for here, to tow out the Bassan, has not yet arrived altho she is 72 hours out. The tug, which put into Halifax with a new propeller for a boat which proceeded here from New York on the same mission but became disabled, is doubtless experiencing severe weather and will likely reach port this evening.

## \$50 FOR BOX

At the Board of Trade rooms at 1 o'clock today one of the boxes at the Casino Theatre, for the "Follies" on Friday night, in aid of the poor of the city, was put up at auction by Hon. S. Milley. The bidders were few and the box was knocked down for \$50.00.

## Fire Last Night

Fire broke out last night in the house and store owned and occupied by John Hunt, Theatre Hill, and caused considerable damage. The blaze started on the top flat and was seen from the street by a young man named Ash who sent in an alarm bringing the Central and Eastern Companies to the scene. In the meantime Mr. Hunt with the aid of some street car workers had got busy with pails of water and when the Central Station chemical arrived the fire was nearly out. The all-out signal was not sent in, however, for more than twenty minutes by which time considerable damage was done to the house and furnishings and to the store underneath. Sufficient insurance was carried to cover the loss.

## WHILE YOU HESITATE

While you are hesitating, fires galore are at their dreadful work and over \$400,000.00 worth of property has during the last few weeks gone up in smoke. Can you say what night your turn may come. The cost of this necessary protection is low with me to-day.—Percie Johnson, The Insurance Man.

## PERSONAL

Mrs. McMorow and her two children who were here on a visit to the former's brother, Mr. J. Larkin, of the Municipal Office, leave for New York by the Rosalind. Miss Stella Larkin accompanies them.

Miss Mabel McGrath, daughter of B. M. and Mrs. McGrath, leaves by the Rosalind for New York to-night on a visit to her brothers Dr. Bernard and Thomas and her sister Miss Dorothy, a nurse at Westboro State Hospital. Miss McGrath will later take an important position with Mrs. Addison Brown, widow of the late Judge Brown of the Supreme Court. Miss McGrath gave her splendid talents freely to local theatricals and she will be greatly missed in these circles.

## FINED \$100.00

A young man was before Court today charged by Head Byrne with a breach of Sec. 4 of the Prohibition Act. It became known to the police that a shipment of liquor had come out over the Topsail Road and was traced to a house on Barter's Hill. The house was searched and five bottles of rum were found. The proprietors of the place disclaimed all knowledge of it and the defendant, who is a boarder, admitted that it was his. He pleaded guilty and was fined \$100.

A young man created a disturbance in his residence at Barter's Hill last night and Sergt. Nugent was called. The man had been in the Lunatic Asylum and had been released some time ago. Sergt. Nugent and some of the police took him to the station.

Outdoor skating, always such an enjoyable feature of winter life here, is not much in vogue this season. Heavy snow storms in the early winter filled the suburban ponds and lakes with a great accumulation of snow which covers the ice to a depth of several feet. Copious rains for a few days with a free thaw would be necessary to clear the ponds and put them in good condition for skating.

## LEFT FAMILY DESTITUTE

A city pedlar was before court this morning charged with leaving his wife and seven children in a destitute condition. This case was brought to the attention of the Minister of Justice, Hon. W. R. Warren, by Mrs. Warren who, in the course of her visits to the poor, was made aware of it. Mr. Warren sent Detective Lee to investigate the circumstances and the officer testified that of all the cases of destitution he has seen this was about the worst. The man himself said that he had been earning from \$30 to \$50 a week but his wife said that he spent it all at the cafes and gave her none of it. The house was leaky and the children were naked. The case was prosecuted by the Minister of Justice himself on behalf of the wife and the Judge ordered the defendant to give a personal bond of \$200 and an independent surety for \$200 to look after his family immediately or go to jail for 30 days, at the end of which time another 30 days will be awaiting him if he does not undertake to discharge his matrimonial obligations.

## 28 Below Zero

We learn from the Reid Nfld. Co. that it was exceptionally cold this morning early across country. At Humbermouth the glass recorded 28 below zero and at Bishop's Falls 10 below. It varied from zero to 5 below at other places.

## MURRAY ANDERSON IN LONDON

"The League of Nations," the show which Mr. Murray Anderson, son of Hon. John Anderson, has produced in conjunction with Mr. C. B. Cochran, opened last night at the New Oxford Theatre, London, before a brilliant audience, including the Duke of York and Prince Henry.

Scenes of unprecedented enthusiasm greeted the premiere, and today's notices in the London press are exceptional in their praise of the show, which apparently has created a furor.

## OBITUARY

MICHAEL A. DUFFY.

The very many friends of the late Mr. Michael A. Duffy, the well known grocer, received a sad surprise early yesterday afternoon when they learned of his death at his residence, Le Marchant Road. Mr. Duffy, never a man of robust constitution, had been ill the past two years or more and last year went abroad for expert medical advice. He had not been well the past summer, but was able to be about and at business until a couple of weeks ago when contracting a severe cold he became confined to his room. His condition becoming worse Sunday he received the rites of Holy Church at the hands of Rev. Fr. Leamey, of St. Patrick's, and passed quietly and peacefully into the Great Beyond yesterday. Gentle and affable by temperament, courteous and charitable Mr. Duffy had many friends in St. John's and few enemies. A well known figure in business circles he was also a favorite socially and many will miss his cheery personality. Mr. Duffy was for many years a prominent member of the B.I.S. and a charter member of St. John's Lodge Elks No. 1. Mr. Duffy, who was in his 48 years, leaves to mourn him a widow, nee Miss Mary Lawlor, two sons, Leo and Augustus, and two brothers, Mr. Andrew Duffy, grocer, this city, and John in Philadelphia, Pa. Interment takes place at 2.30 p.m. to-morrow. To the grief stricken family and relatives the Advocate tenders its sincere sympathy.

## GOOD DETECTIVE WORK

Sergt. Cox, now at Carbonear, has been doing some good detective work since going on that station. On the 5th inst. some person broke into the store of Capt. Burden and relieved the place of \$50 in cash. The case was put in the hands of the Sergeant who worked quietly but very effectively and a couple of days ago landed the culprits, for two men were engaged in it. One remained outside the building after the other had broken into and looted the place. The Sergeant got all the money in the possession of the thief, who, pleading guilty before Magistrate Penny was given 4 months in the penitentiary. His associate was given the option of a fine and had to contribute \$50 to the treasury to save himself a period of incarceration.

The other case was a larceny of \$43 which occurred in the home of a lady in November. A girl had been arrested some time afterwards but was found to be innocent. The Sergeant had his wits at work and after secret but shrewd inquiry saw how matters stood and arrested the step-mother of the person who lost the cash, all of which the officer recovered. She was convicted and was fined \$60 with the alternative of a lengthy period in the penitentiary.

## SUCCESSFUL CHARITY DANCE

The charity dance held in the C.C.C. Hall last night was attended by over 500 persons and was enjoyable in every particular. The program was excellently arranged while the music by the C. C. C. Band was of a very high order. During the evening teas were served by the ladies in charge and whose efforts in thus assisting the poor are to be warmly commended. It is understood that the proceeds will amount to nearly \$900 which will be handed over to the Dorcas and St. Vincent de Paul Societies for distribution.
